Fabrizio Guerra — Founder & CEO

Fabrizio Guerra is the Founder & CEO of TELCAVOIP INTERNATIONAL EU. Born in Thiene and raised in Spilimbergo, in Italy's Friuli region, he works across telecommunications, ICT integration, cybersecurity and digital transformation.

A certified international cybersecurity expert, he is listed in the International Register of Artificial Intelligence Experts. He has led TelcaVoIP's evolution from a VoIP operator into an international cloud communications group, including its expansion into the United States and its global eSIM services.

In his interviews and articles he advocates technology built around security, efficiency and the needs of people and businesses. His views have been published by outlets including TechBullion, 1883 Magazine, London Daily Post and Nordest24.

Leads a team of professionals of different nationalities across Europe and the United States.

Ready-to-use quotes

> «Artificial intelligence has already entered the enterprise: the real challenge today is not adopting it, but governing it with clear rules, security and accountability.»
>
> — Fabrizio Guerra, Founder & CEO, TELCAVOIP INTERNATIONAL EU

> «Every call, every message and every piece of company data deserves the same level of protection: in modern communications, security is not an add-on, it is the starting point.»
>
> — Fabrizio Guerra, Founder & CEO, TELCAVOIP INTERNATIONAL EU

> «Technology only makes sense if it makes people's lives simpler: our goal is to let every business communicate with the world, without borders, simply and securely.»
>
> — Fabrizio Guerra, Founder & CEO, TELCAVOIP INTERNATIONAL EU
